Dear Efrain

On behalf of the UIS Bureau I wanted to drop you a line to say how much we have enjoyed working with you and FEALC over the last few years.

We feel we have established a pretty close relationship and a fit between the region body of FEALC and the International body of UIS seems to be understood and works well.

The attendance of FEALC members at our Congress and Bureau meeting is always very much welcomed. In return members including myself from outside the Latin American region have thoroughly enjoyed attending FEALC meetings.

The Bureau of UIS look forward to continuing and strengthening our relationship into the future.

With best wishes

ANDYEAVIS
